Greetings –

As you may know, the Bullard Interchange construction project is finishing up in the coming weeks. Like all freeways in the Valley, the Arizona Department of Transportation (ADOT) realizes the sensitivity of this corridor and the impact construction may have on local traffic. I would like to thank you personally for your patience and cooperation with us during the construction of this important interchange project.

As an important business entity along the I-10 corridor, ADOT is committed to communicating and building relationships with you and the business partners in your area who make up the economic engine of the Southwest Valley. This continued interaction is vital as additional construction to expand lanes on I-10 begins.

As the Community Relations Project Manager for this project, I would like to offer you the opportunity to personally discuss the project, its schedule/timeframe, and traffic impacts near your area of business. I and members of my team would like to hear your thoughts and make ourselves available to you throughout the duration of the project.

I strongly encourage you to please contact Lars Jacoby, Community Relations Officer or myself to set up a meeting at your place of business for a discussion about the project. Lars can be reached at 602-712-7176. If you are unable to meet with us directly, we would like to continue providing you information on the progress of the I-10 construction project through e-mail updates, newsletters and additional correspondence.

As always, please do not hesitate to contact either one of us with any questions or feedback. Thank you for your willingness to partner with us on this project.

Brock J Barnhart
Community Relations Project Manager
